

Update your Church Information

Once inside the dashboard, you have the ability to update your church information and have it immediately saved to our conference database, which is also available to all district offices. In addition, this updates your church “page” on our website. This page showcases a photograph of your church (if available), worship times, driving directions, website address, church e-mail address and more.

To update your church’s information, simply click on “My church’s information” from the dashboard homepage or click on the “Church” tab on any of the inner pages.

The information in the form below comes from the conference database and is used on the website and all conference communications.
